

# DICTA 2008 Canberra

## Digital Image Computing: Techniques and Applications

1 - 3 December 2008 · Canberra, Australia

[Call For Papers](#)

*General Chair*

**Antonio Robles-Kelly**  
NICTA and ANU

*Honorary Chair*

**Terry Caelli**  
NICTA and ANU

*Area Chairs*

**Michael Frater**  
UNSW@ADFA  
**Anthony Maeder**  
University of Western Sydney  
**Girija Chetty**  
University of Canberra  
**Hao Shi**  
Victoria University  
**Roland Goecke**  
Seeing Machines and ANU

*Local Arrangements Chair*

**Jun Zhou**  
NICTA and ANU

Since 1991, DICTA has been the main Australian venue for the presentation of advances and research results on digital image computing. From its establishment, DICTA has been a biannual meeting. In 2008, it will turn into an annual conference. Prospective authors are invited to submit full papers of 6 to 8 pages, including figures, references and results.

Topics include, but are not limited to

- Image coding and processing
- Shape and texture analysis
- Surveillance, defence and industrial applications
- Remote sensing and spectral imaging
- Statistical and structural pattern recognition
- Computer vision
- Artificial intelligence
- Software and hardware
- Human-computer interaction
- Biomedical imaging, bioinformatics and e-health applications
- Biotechnology and medical applications of pattern recognition

Papers will be accepted only by electronic submission at the [DICTA 2008](#) web site. Each submitted paper will be reviewed by at least two members of the Program Committee. Accepted papers will be published by the IEEE Conference Publishing Services (CPS). The Proceedings will be available to delegates at the conference and a selection of the best papers will be published separately in a special issue of the [IET Computer Vision Journal](#).

DICTA 2008 will take place at the Rydges Lakeside Canberra. The important dates for DICTA 2008 are

<b>Paper submission</b>	<b>11 July 2008</b>
<b>Notification of acceptance</b>	<b>11 August 2008</b>
<b>Camera ready papers due</b>	<b>12 September 2008</b>
<b>Early registration</b>	<b>3 October 2008</b>
<b>Conference</b>	<b>1-3 December 2008</b>

Please note that it is a condition of publication that accepted papers are presented by one of the authors. Presenters for accepted papers must register before the camera ready deadline to avoid withdrawal from the conference proceedings and programme. Non-student registrations may cover up to three (3) papers if and only if the presenter is the same for every of the named papers at registration time.
